Study Case

A consulting company named "PT Mitra Konsultan Prima" often sends its employees on business trips. There are 3 employee positions that are entitled to submit a reimbursement: Director, Manager, and Staff.

Every business trip is paid for by the company and consists of a Daily Allowance, Lodging Cost, and Transport Cost. The daily allowance and the lodging rate differ for each position. Lodging cost is covered only if the trip destination is Out of Town.

If the destination is In Town, the employee does not stay overnight, so no lodging cost is paid. Specifically for the Director, the company also covers a Car Rental Cost, which is added to the Transport Cost.
